### A Letter To Santa

Dear Santa,

My name is Will and I am 9. I may be too old to believe in you any more so I'm writing this letter to teach my sister a lesson. I told her I was letting you know that she has been very mean to me this year. I would not bring her any presents if I were you (except for maybe the puppy—that would be awesome). In case my friends are wrong and you are real I do want an electric scooter more than anything in the world. My parents say they'll get me one the same time pigs sprout wings and fly. Santa you are my last hope.

Yours respectfully,  
William True McGiver
