### **Eight Principles of Motherhood**

- 1) If motherhood were going to be easy, it never would have started with labor.
- 2) Shouting to make your children obey is like using the horn to steer your car, and you get about the same results.
- 3) The smartest advice on raising children is to enjoy them while they are still on your side.
- 4) Avenge yourself—live long enough to be a problem to your children.
- 5) The best way to keep kids at home is to let the air out of the tires.
- 6) Life's golden age is when the kids are too old to need babysitters and too young to borrow the car.
- 7) The only people in this world who are always sure about how to raise children are those who never had any.
- 8) There are 3 ways to get something done: do it yourself, hire someone to do or forbid the children from doing it.
